*2018 Dates*

I am having a second hip replacement. Therefore we are not doing our usual late May date and have cut back our availability dates to three. If you are interested in meat at any other time, simply call or email. We usually have meat in stock to fill orders.

*Consider a Visit*

During pasture season, we love to share our farm and animals. We've done tours for many types of groups and individuals. If you are interested in visiting, don't hesitate to call or email us to arrange a date. The only problem particularly for young children is the fact that the cattle are not pets, therefore they cannot be petted. We do however have three horses that love attention. They will gladly fill in for the cattle.
